

Muse Site Walkthrough Direction 3: The Proof

The Proof is a work-led homepage: it opens with what Muse has actually shipped, not a thesis or a pitch, then opens the three doors as ways to act on that proof. A work-led homepage direction for muse.sa. The site opens with what Muse has actually shipped rather than a thesis, then opens Build, Ventures and Think as three ways to act on that proof. Screenshots in this walkthrough are section-exact captures from the direction build, taken at 1440x900 desktop and 390x844 mobile, both at a 2x device scale. Copy is quoted verbatim from the site's own content files.

One of three homepage directions, each built and deployed separately. This walkthrough documents the Proof direction section by section, in the exact order it renders on the page, in both languages, discloses where the Arabic route currently renders English copy, and ends with the decisions the team needs to make before this direction ships.

MUSE-DIR-03

STATUS

Review · Revision 3

02 Hero · English

First screen, full viewport, real fixed navigation visible. States the position in two lines and hands off directly into the Proof Wall.

Desktop. We don't pitch.

Mobile. We don't pitch.

03 Hero · العربية

أول شاشة بالصفحة، بعرض الشاشة الكامل، مع بقاء القائمة الثابتة ظاهرة. تحدّد الموضع بسطرين وتنتقل مباشرة إلى حائط الإنجازات.

ARABIC ROUTE, ENGLISH COPY

Arabic route and RTL composition. This section's copy is currently stored in English in the Arabic catalogue, pending native localization. This is not a translation.

Desktop. We don't pitch.

Mobile. We don't pitch.

04 Hero · content and rationale

States the position in two lines, a negation then the claim it sets up: Muse does not pitch, it ships. The tagline commits to what follows being real work, and the single CTA leads straight into the Proof Wall rather than into a company pitch.

Content anatomy

- Headline, two lines: a plain negation, then the claim it turns into.
- Tagline: a one-line commitment to what follows being real work.
- Subtitle: names the three kinds of proof the page is about to show.
- One CTA, into the work itself.

Verbatim copy

English

Headline: We don't pitch.

Headline, turn: We ship.

Tagline: Everything below is real work.

Subtitle: Anonymized case studies. Live experiments.
Content we wrote.

CTA: View the work

العربية

العنوان: We don't pitch.

العنوان، التحول: We ship.

الوسم: Everything below is real work.

العنوان الفرعي: Anonymized case studies. Live experiments.
.Content we wrote

الزر: View the work

ARABIC ROUTE, ENGLISH COPY

The Arabic catalogue key for this section currently stores the same English strings shown on the English route. The layout and direction render correctly in RTL; the words themselves are English, not a runtime fallback. Native Arabic copy for this section is an open decision, not yet written (see Open Decisions, D3-AR).

Why it sits here

First screen, full viewport, with the real fixed navigation visible. A proof-led homepage has to earn its claim inside the first screen before a visitor scrolls, so the Hero commits to shipping and hands off directly into the Proof Wall.

SOURCE

No source in this direction's reference set (Reference Evidence 1 to 6) specifically informed the Hero; it is Muse's own positioning claim, not adapted copy.

Section-exact Proof Wall: desktop on this page, then mobile cards 1 to 3. Cards 4 to 6 continue on the next page without cutting a card.

Desktop. What we've shipped. What we're building.

Mobile, part A. Heading and cards 1 to 3.

Mobile continuation: cards 4 to 6 complete the section without cutting or shrinking a proof card.

Mobile, part B. Cards 4 to 6. Desktop is shown on the prior page.

07 Proof Wall · العربية (1 of 2)

Desktop. What we've shipped. What we're building.

Mobile, part A. Heading and cards 1 to 3.

استكمال نسخة الجوال: البطاقات من 4 إلى 6 تكمل القسم من دون قص أي بطاقة أو تصغيرها.

ARABIC ROUTE, ENGLISH COPY

Arabic route and RTL composition. This section's copy is currently stored in English in the Arabic catalogue, pending native localization. This is not a translation.

Mobile, part B. Cards 4 to 6. Desktop is shown on the prior page.

09 Proof Wall · content and rationale (1 of 2)

The direction's main surface: a grid of six work cards spanning enterprise delivery, an AI feature, a consumer redesign, two live venture products and a content channel, each tagged with its stack and category rather than described in adjectives.

Content anatomy

- Eyebrow: names this as the section where the work speaks.
- Heading: what has shipped, what is being built.
- Subtitle: no decks, no strategies, just work that is running.
- Six cards: category tag, title, one proof-dense paragraph, stack tags, and a link into the case study or the live product.

Stored EN and AR catalogue overview

Eyebrow: The work speaks

Heading: What we've shipped. What we're building.

Subtitle: No decks. No strategies. Just work that's running in production or live in the wild.

ARABIC ROUTE, ENGLISH COPY

The Arabic catalogue key for this section currently stores the same English strings shown on the English route. The layout and direction render correctly in RTL; the words themselves are English, not a runtime fallback. Native Arabic copy for this section is an open decision, not yet written (see Open Decisions, D3-AR).

Cards 1 to 3

Card 1: Core banking platform

Category: Enterprise

Body: Replaced a 15-year legacy system for a PIF-level financial institution. 40+ services, zero-downtime migration, 200k daily transactions.

Tags: TypeScript, Kubernetes, Event-driven

Card 2: Automated underwriting engine

Category: AI Feature

Body: Cut loan decision time from 3 days to 12 minutes for a Saudi fintech. 94% accuracy vs human baseline. Shipped in 8 weeks.

Tags: Python, LLM, RAG

Card 3: Consumer app redesign

Category: Brand Interface

Body: End-to-end redesign for a 500k-user Saudi super-app. Design system, motion language, RTL-first. 40% retention lift post-launch.

Tags: Figma, React Native, Design Systems

10 Proof Wall · content and rationale (2 of 2)

Cards 4 to 6 complete the exact stored content set.

Cards 4 to 6

Card 4: Muse Experiments

Category: Venture

Body: Live lab for AI-native product patterns. 3D agents, generative interfaces, local-first sync. Open source, production-grade.

Tags: Three.js, WebGPU, Open Source

Card 5: Tenet

Category: Venture

Body: AI-native knowledge base for teams that build. Not a wiki. A thinking partner. Early access live.

Tags: Next.js, Vercel AI SDK, Postgres

Card 6: Field Notes Newsletter

Category: Content

Body: Weekly dispatches on what we're seeing across engagements. No AI news. No 10-tip lists. Just field notes.

Tags: Writing, Strategy, Engineering

Why it sits here

Directly after the Hero's claim, because a work-led direction has to make good on it immediately: the Proof Wall is the actual evidence, ahead of any doors, argument or manifesto.

SOURCE

Stripe's four equal benefit lanes and customer-logo band are Direct input for the Proof Wall's outcome-first hierarchy (Reference Evidence 1). Whole-card, eyebrow-free navigation across shipped-work lanes is Direct input from Notion (Reference Evidence 2). Framer's live shipped-work presentation (Reference Evidence 4) and Mercury's heading-plus-metrics proof row (Reference Evidence 5) are Direct input for treating shipped work as the content surface itself, not decoration. The six cards' specific claims are Muse's own; the figures inside them, including the 94 percent accuracy line, the 40 percent retention lift line, and the PIF-level reference, are current website claims, not independently verified results (see Open Decisions, D3-PROOF).

OPEN CLAIM

The Proof Wall states 94 percent accuracy against a human baseline, a 40 percent retention lift, and a PIF-level financial institution client, none of which carry a supporting evidence page, source citation or client name in the current build.

Recommendation: Add evidence pages that substantiate each figure, or soften or anonymize the claims further before external circulation. This walkthrough labels them as current website claims pending substantiation, not as verified results, and that label should carry over to any external-facing version of this direction.

The fixed header is hidden only for the instant of capture on every section after the Hero, then restored. This is presentation cleanup so the sticky pill does not paint over a heading in a screenshot; it is not a change to the section itself, and the Hero capture keeps the header visible because it documents the true first screen.

Section-exact capture: begins at the doors heading, ends before the Manifesto heading. No Manifesto pixels in any Doors image.

Desktop. Pick the door that matches you

Mobile. Pick the door that matches you

التقاط مضبوط على حدود القسم: يبدأ من عنوان الأبواب وينتهي قبل عنوان البيان. لا تظهر أي بكسلات من البيان في صور الأبواب.

Desktop. اختر الباب اللي يناسبك.

Mobile. اختر الباب اللي يناسبك.

13 Three doors · content and rationale

Routes three kinds of visitor, build, ventures and think, to the part of the business that matches them, framed as ways to act on the proof just shown rather than as a general service menu.

Content anatomy

- Section heading, no eyebrow above it.
- Three equal-weight cards: Build, Ventures, Think.
- Per card: title, one-line body, a promise set off with a rule, a distinct verb CTA.

Verbatim copy

English

Heading: Pick the door that matches you

Build: title: Your product, built

Build: body: A senior squad builds inside your team, proving value in weeks, not quarters.

Build: promise: Every engagement ends with something running in production, not a slide deck.

Build: CTA: Start a build

Ventures: title: Our own products

Ventures: body: Arabic first, real data, and the details most products skip.

Ventures: promise: We publish what we build, and keep going with whatever people actually use.

Ventures: CTA: See what we ship

Think: title: Knowledge and community

Think: body: Articles, field notes, and a newsletter for people building here.

Think: promise: The same thinking that goes into the work, published.

Think: CTA: Read the latest

العربية

العنوان: اختر الباب اللي يناسبك

بناء: العنوان: منتجك، مبني كما يجب

بناء: النص: فريق خبير يبني جنبك، ويثبت قيمته خلال أسابيع، مو شهور.

بناء: الوعد: كل مشروع ينتهي بشيء شغال في الإنتاج، مو عرض تقديمي.

بناء: الزر: ابدأ البناء

مشاريعنا: العنوان: منتجاتنا الخاصة

مشاريعنا: النص: عربي أول، بيانات حقيقية، والتفاصيل اللي يتخطاها غيرنا.

مشاريعنا: الوعد: ننشر اللي نبنيه، ونكمل مع اللي يستخدمه الناس فعلاً.

مشاريعنا: الزر: شوف اللي نطلقه

فكر: الوعد: نفس التفكير اللي يدخل في الشغل، ننشره.

فكر: الزر: اقرأ الجديد

Why it sits here

After the Proof Wall establishes what Muse has actually built, the doors give a visitor three concrete ways to act on that proof, each consistent with the work just shown.

SOURCE

No source in this direction's reference set (Reference Evidence 1 to 6) specifically informed the Doors. The shared card grammar, title, one-line body, rule-set promise, distinct verb CTA, is a pattern Muse reuses unchanged across all three homepage directions; the copy is Muse's own, not adapted from a Direction 3 evidence figure.

The fixed header is hidden only for the instant of capture on every section after the Hero, then restored. This is presentation cleanup so the sticky pill does not paint over a heading in a screenshot; it is not a change to the section itself, and the Hero capture keeps the header visible because it documents the true first screen.

Section-exact capture including the embedded pressure statement and its CTA; ends before the Outcomes band.

Desktop. The next decade of software gets decided in the next two years.

Mobile. The next decade of software gets decided in the next two years.

التقاط مضبوط على حدود القسم يشمل جملة الضغط المدمجة وزر الدعوة الخاص بها؛ ينتهي قبل شريط النتائج.

عصر المنتجات الرقمية يتحدّد خلال السنتين الجاية.

تكلفة بناء المنتجات الجيدة جالسة تنهار ووجودك في السوق ما عاد يكفي. والفجوة بين الشركات التي تتحرك والشركات التي تخطط على وشك تصبح دائمة.

تقدر تقود هالتحول من الداخل. أغلب الشركات ما راح تقوده، ومو لنقص في الطموح، بل لأن التشغيل اليومي يأخذ الوقت والأولوية دائمًا.

ما تهمنى خطة هذا الربع. اللي يهمنى خطة الخمس سنين الجاية.

الدّكاء الاصطناعي مو خيار.

والانتظار هو الخطر.

عصر المنتجات الرقمية يتحدّد خلال Mobile. السنتين الجاية.

Extends the proof into a why-now argument: the cost of building good software is falling, so the gap between companies that move and companies that plan is about to become permanent. Closes with the pressure statement and a second CTA.

Content anatomy

- Section heading: the two-year claim.
- Three short paragraphs building the argument in sequence.
- Pressure statement: two short lines, a plain claim then its consequence.
- CTA, into the same contact flow as the Hero.

Verbatim copy

English

Heading: The next decade of software gets decided in the next two years.

Paragraph 1: The cost of building good software is collapsing. That doesn't help you on its own. It means the gap between the companies that move and the ones that plan is about to get permanent.

Paragraph 2: You could drive that from inside. Most won't, and not for lack of ambition. Day to day operations always win the calendar.

Paragraph 3: We're not interested in your roadmap for this quarter. We're interested in the one that matters in five years.

Pressure, lead: AI isn't optional.

Pressure, emphasis: Waiting is the risk.

CTA: Get started

العربية

العنوان: عصر المنتجات الرقمية يتحدّد خلال السنتين الجاية.

الفقرة الأولى: تكلفة بناء المنتجات الجيدة جالسة تنهار. ووجودك في السوق ما عاد يكفي. والفجوة بين الشركات اللي تتحرك والشركات اللي تخطط على وشك تصير دائمة.

الفقرة الثانية: تقدر تقود هالتحول من الداخل. أغلب الشركات ما راح تقوده، ومو لنقص في الطموح، بل لأن التشغيل اليومي يأخذ الوقت والأولوية دائماً.

الفقرة الثالثة: ما تهمننا خطة هذا الربع. اللي يهمننا خطة الخمس سنين الجاية.

جملة الضغط: الذكاء الاصطناعي مو خيار.

التأكيد: والانتظار هو الخطر.

الزر: ابدأ الآن

Why it sits here

After the doors, because a visitor who has already picked a door and seen the proof is ready for the argument about why the choice is urgent now, not before the evidence has been shown.

SOURCE

No source in this direction's reference set (Reference Evidence 1 to 6) specifically informed the Manifesto; it is Muse's own argument, not adapted copy.

The fixed header is hidden only for the instant of capture on every section after the Hero, then restored. This is presentation cleanup so the sticky pill does not paint over a heading in a screenshot; it is not a change to the section itself, and the Hero capture keeps the header visible because it documents the true first screen.

17 Outcomes band · English

Short band, element capture. One centered sentence between the Manifesto and the Ticker.

We deliver outcomes, **not just tools.**

Desktop. We deliver outcomes, not just tools.

We deliver outcomes,
not just tools.

Mobile. We deliver outcomes, not
just tools.

شريط قصير، التقاط للعنصر كاملاً. جملة واحدة في المنتصف بين البيان والشريط المتحرك.

نوصّل نتيجة فعلية، **مو مجرد أدوات.**

Desktop. نوصّل نتيجة فعلية، مو مجرد أدوات.

نوصّل نتيجة فعلية، **مو مجرد أدوات.**

Mobile. نوصّل نتيجة فعلية، مو مجرد أدوات.

19 Outcomes band · content and rationale

One sentence, large type, restating the delivery standard: Muse ends engagements with outcomes, not just tools. A pause between the Manifesto's argument and the Ticker below, not a new argument.

Content anatomy

- Single centered paragraph, two clauses, the second one accented.

Verbatim copy

English

Heading: We deliver outcomes, not just tools.

العربية

العنوان: نوصل نتيجة فعلية، مو مجرد أدوات.

Why it sits here

A short band kept deliberately short: it closes the Manifesto's argument with a standard, then hands off to the Ticker without asking the visitor to read anything else first.

SOURCE

No external reference source; this is Muse's own delivery-standard line, carried unchanged from the current site copy.

The fixed header is hidden only for the instant of capture on every section after the Hero, then restored. This is presentation cleanup so the sticky pill does not paint over a heading in a screenshot; it is not a change to the section itself, and the Hero capture keeps the header visible because it documents the true first screen.

Bounded clip around the ticker wrapper, animation frozen at its initial frame for a deterministic, legible capture.

Desktop. Nothing ships that we wouldn't use ourselves

Mobile. Nothing ships that we
wouldn't use ourselves

التقاط محدود حول إطار الشريط المتحرك، مع تجميد الحركة عند إطارها الأول لالتقاط ثابت وواضح.

لا نطلق ما لا نستخدمه نحن. Desktop.

لا نطلق ما لا نستخدمه نحن. Mobile.

22 Ticker · content and rationale

A single repeating marquee line restating Muse’s own release rule: nothing ships that the studio would not use itself. Texture and a restated standard, not new information.

Content anatomy

- One repeated line in a scrolling band, tilted off the horizontal axis.

Verbatim copy

English

Line: Nothing ships that we wouldn’t use ourselves

العربية

السطر: لا نطلق ما لا نستخدمه نحن

Why it sits here

Sits between the Outcomes band and FAQ as a visual and rhythmic break: the page has just made its central proof and argument, and the ticker is a breath before the objections section.

SOURCE

No external reference source; this is Muse’s own internal quality bar, stated as a marquee rather than adapted from another site’s pattern.

The fixed header is hidden only for the instant of capture on every section after the Hero, then restored. This is presentation cleanup so the sticky pill does not paint over a heading in a screenshot; it is not a change to the section itself, and the Hero capture keeps the header visible because it documents the true first screen.

Element capture, first accordion item open, the component's real default state (no state was forced for the shot).

Desktop. Questions? We have answers.

Mobile. Questions? We have answers.

التقاط للعنصر كاملاً، مع بقاء أول سؤال مفتوحاً كما هي الحالة الافتراضية الحقيقية للمكوّن.

أكد عندك أسئلة. Desktop.

أكد عندك أسئلة. Mobile.

Answers five real objections a serious buyer raises before committing, in the buyer's own language, on the page, rather than making them ask.

Content anatomy

- Section heading.
- Five accordion rows, first one open by default.
- Each row: a question in the buyer's voice, a direct answer with no hedging.

Verbatim copy

English

Heading: Questions? We have answers.

How is Muse different from a typical dev shop?: We're a small, senior team, not a rotating cast of contractors. No 100-slide strategy decks with nothing behind them. We scope fast, build with you, and measure ourselves on what actually shipped.

What does AI transformation actually mean?: Finding where AI removes real friction in how your business runs, building the systems that do it reliably, and getting your team actually using them. Then repeating that cycle as the tools improve.

Who's on the team?: A small senior team based in Riyadh. The people who scope your work are the people who build it, so you're talking to engineers in the first conversation rather than a sales layer. Names and backgrounds are on the about page.

How does pricing work?: Every engagement is scoped and priced on its own, once we understand what you're actually trying to do. Tell us the problem and we'll come back with a number and exactly what sits inside it.

Who do you typically work with?: Teams that want to move fast without dropping the quality bar. That runs from a founder shipping a first product to an enterprise team trying to get an AI initiative out of pilot purgatory.

Why it sits here

After the proof, the doors and the manifesto have all been shown, objection-handling belongs right before the final ask.

SOURCE

No source in this direction's reference set (Reference Evidence 1 to 6) specifically informed the FAQ; the specific questions and answers are Muse's own.

The fixed header is hidden only for the instant of capture on every section after the Hero, then restored. This is presentation cleanup so the sticky pill does not paint over a heading in a screenshot; it is not a change to the section itself, and the Hero capture keeps the header visible because it documents the true first screen.

العربية

العنوان: أكيد عندك أسئلة.

وش يفرقكم عن شركات التطوير الثانية?: احنا فريق صغير من أصحاب الخبرة، مو مجموعة متعاقدين جايين عن طريق وسيط. ما راح نسوي لك عرض استراتيجي من 100 شريحة ما أحد يفهمه. بنجلس معك، ونفهم منك، ثم نحدد النطاق ونبني معك. هدفنا مو التسليم، هدفنا نبني منتجات نفخر فيها، جودتها عالية وتخدم احتياجك فعلاً.

ما معنى التحول بالنكاء الاصطناعي عملياً?: الهدف مو أن كل موظفينا يستخدمون النكاء الاصطناعي. الهدف أننا نفهم وين المكان اللي نقدر نوظفه فيه عشان يقدم فائدة فعلية قابلة للقياس، تحدث أثرًا في طريقة عمل شركتك. وإن احتجنا، نبني الأنظمة اللي تمكّن فريقك فعليًا على أرض الواقع. ثم نقيس الأثر ونحسّن بناءً على الاستخدام الفعلي، مو على التخييلات.

مين في الفريق?: فريق صغير من أصحاب الخبرة، مقوّه الرياض. واللي يجلس معك ويحدد نطاق عملك ويجتمع معك بشكل دوري هو نفسه اللي قاعد يشتغل عليه، بدون فريق مبيعات أو وسطاء.

كيف يعمل التسعير?: كل مشروع يُحدد نطاقه ويُسعر على حدة، بعد ما نفهم وش تحاول تسوي بالضبط. خبزنا بالمشكلة، ونرجع لك برقم يوضح وش يشمل.

مع من تعملون بالعادة?: فرق تريد التحرك بسرعة من غير ما تتنازل عن الجودة. من مؤسس يطلق منتجه الأول إلى مؤسسات وشركات كبيرة تحاول إخراج مبادرات ذكاء اصطناعي ومنتجات من مراحل تجريبية ونماذج أولية مالها نهاية.

28 Final CTA · content and rationale

Closes the page with one direct ask, framed around the visitor's own project rather than around Muse, and a single button into the contact flow.

Content anatomy

- Heading: an instruction, not a question.
- Subheading: who actually answers, framed against a sales layer.
- One button.

Verbatim copy

English

Heading: Tell us what you're trying to build.

Subheading: The first conversation is with the people who would build it, not a sales layer.

Button: Get started

العربية

العنوان: Tell us what you're trying to build.

العنوان الفرعي: The first conversation is with the people who would build it, not a sales layer.

الزر: Get started

ARABIC ROUTE, ENGLISH COPY

The Arabic catalogue key for this section currently stores the same English strings shown on the English route. The layout and direction render correctly in RTL; the words themselves are English, not a runtime fallback. Native Arabic copy for this section is an open decision, not yet written (see Open Decisions, D3-AR).

Why it sits here

Last section before the footer, by definition: the proof wall, the doors, the manifesto and the objections have all been shown by the time a visitor reaches this point, so the only thing left is to ask.

SOURCE

No external reference source for the specific line; opening with the visitor's own project rather than the company is Muse's own positioning choice, consistent with the Hero's subtitle.

The fixed header is hidden only for the instant of capture on every section after the Hero, then restored. This is presentation cleanup so the sticky pill does not paint over a heading in a screenshot; it is not a change to the section itself, and the Hero capture keeps the header visible because it documents the true first screen.

Element capture of body > footer, outside <main>; the only page in this walkthrough where the footer appears.

ARABIC ROUTE, ENGLISH COPY

The Arabic catalogue key for this section currently stores the same English strings shown on the English route. The layout and direction render correctly in RTL; the words themselves are English, not a runtime fallback. Native Arabic copy for this section is an open decision, not yet written (see Open Decisions, D3-AR).

Why it sits here

Terminal by definition: it is outside main, renders after every page's content, and is the one section that must never appear paired with any other section's screenshot.

SOURCE

No external reference source; the footer is Muse's own contact and legal information, not adapted from another site.

The fixed header is hidden only for the instant of capture on every section after the Hero, then restored. This is presentation cleanup so the sticky pill does not paint over a heading in a screenshot; it is not a change to the section itself, and the Hero capture keeps the header visible because it documents the true first screen.

The FAQ answers five questions a serious buyer actually raises before committing. They are reproduced here with the same verbatim copy shown in the FAQ visual and content pages, so the appendix stands on its own without flipping back.

English

How is Muse different from a typical dev shop?: We're a small, senior team, not a rotating cast of contractors. No 100-slide strategy decks with nothing behind them. We scope fast, build with you, and measure ourselves on what actually shipped.

What does AI transformation actually mean?: Finding where AI removes real friction in how your business runs, building the systems that do it reliably, and getting your team actually using them. Then repeating that cycle as the tools improve.

Who's on the team?: A small senior team based in Riyadh. The people who scope your work are the people who build it, so you're talking to engineers in the first conversation rather than a sales layer. Names and backgrounds are on the about page.

How does pricing work?: Every engagement is scoped and priced on its own, once we understand what you're actually trying to do. Tell us the problem and we'll come back with a number and exactly what sits inside it.

Who do you typically work with?: Teams that want to move fast without dropping the quality bar. That runs from a founder shipping a first product to an enterprise team trying to get an AI initiative out of pilot purgatory.

Each decision below carries a recommendation. A different answer from the team changes the plan.

1. D3-AR: the Arabic route currently renders English copy on four sections plus shared chrome

On this branch, messages/ar.json stores English strings for Home.hero, every Home.proofWall field and card, CTA, Footer and Nav, and i18n/request.ts performs no runtime fallback between locales. The Arabic route renders genuine RTL layout, but the words themselves are English in the Hero, the Proof Wall, the Final CTA, the Footer and the shared navigation chrome. Doors, Manifesto, Outcomes, Ticker and FAQ are genuinely Arabic.

Localize Home.hero, Home.proofWall, CTA, Footer and Nav into native Arabic before this direction is circulated externally. Until then, ship the walkthrough with the honest RTL and English-catalogue label used throughout this document; do not fabricate Arabic to make a screenshot look complete.

2. D3-PROOF: the Proof Wall's quantitative claims are not independently substantiated

The Proof Wall states 94 percent accuracy against a human baseline, a 40 percent retention lift, and a PIF-level financial institution client, none of which carry a supporting evidence page, source citation or client name in the current build.

Add evidence pages that substantiate each figure, or soften or anonymize the claims further before external circulation. This walkthrough labels them as current website claims pending substantiation, not as verified results, and that label should carry over to any external-facing version of this direction.

3. Planning note undercounts the shipped section set

The direction's planning note (`docs/three-doors/direction-3-the-proof.md`) describes a five-part homepage: Hero, Proof Wall, Three Doors, a condensed Standard Footer statement, and CTA. The current build runs Hero, Proof Wall, Three Doors, Manifesto, Outcomes Band, Ticker, FAQ and CTA before the global Footer, eight blocks plus the terminal Footer. There is no dedicated Standard Footer component, and Manifesto, Outcomes Band, Ticker and FAQ are not mentioned in the planning note at all.

Update the planning note to match the shipped section order, or decide whether Manifesto, Outcomes Band, Ticker and FAQ belong on this homepage before external circulation.

4. whoWeBuildFor content is written but unused

`messages/en.json` and `messages/ar.json` carry a full `Home.whoWeBuildFor` entry, a heading and a body naming founders and operators, and a matching `WhoWeBuildFor.tsx` component exists in the codebase, but `HomeSections.tsx` never renders it on this homepage.

Either add the `WhoWeBuildFor` section back into the homepage, most naturally between Three Doors and Manifesto, or remove the unused catalogue entry and component so the content files match what the site actually shows.

35 Structure map

The homepage in exact rendered order, top to bottom, as it appears in Muse's Direction 3: The Proof build.

#	SECTION	JOB
1	Hero	Position statement and one CTA into the work
2	Proof Wall	Six shipped-work cards, the direction's main evidence
3	Three doors	Build / Ventures / Think, three ways to act on the proof
4	Manifesto	Why-now argument, closed by the pressure statement
5	Outcomes band	One-line delivery standard
6	Ticker	Repeating release-rule marquee
7	FAQ	Five objections, answered
8	Final CTA	One direct ask
9	Footer	Navigation, contact, legal

External influences are indexed below. Muse-owned lines are labeled as such on their content pages. The sources shown here are the same sources shown as live evidence next.

PATTERN	SOURCE	ADAPTATION
Four outcome-led benefit lanes followed by customer proof	Stripe (stripe.com/payments)	Applied to the Proof Wall hierarchy: outcome-led proof cards first, trust context second, rather than a generic feature list.
Whole-card, eyebrow-free navigation across shipped-work lanes	Notion (notion.com)	Informs the Proof Wall card's whole-card link behavior and the Doors' eyebrow-free titles.
A quantified proof statement shown after the site's opening claim	Salla (salla.com)	Informs presenting a settled metric as scale evidence instead of a client-logo wall; Muse's own case-study figures replace Salla's store count, and are labeled as current website claims, not verified results.

37 Source map (2 of 2)

PATTERN	SOURCE	ADAPTATION
Shipped work as the content surface itself, not decoration around a claim	Framer (framer.com)	Informs the Proof Wall's use of real case studies and live products as the primary visual, not supporting decoration.
A proof grid tied explicitly to a stated standard	Mercury (mercury.com)	Informs grouping the six Proof Wall cards as one designed system rather than a loose list; the specific claims inside them are Muse's own.
A dedicated, native RTL proof chapter with a full metrics row	Al Rajhi Bank (alrajhibank.com.sa)	Direct input for the idea of a dedicated Arabic proof chapter. Direction 3's Arabic Proof Wall currently stores English copy instead of native Arabic (see Open Decisions, D3-AR).

NO FABRICATED PROOF

Every figure and metric on this homepage is a current, quoted website claim. None is independently verified by this walkthrough; see Open Decisions, D3-PROOF.

38 Reference evidence (1 of 3)

6 live figures captured today: 6 direct input figures and 0 independent validation figures. Outcome or scale numbers shown on a source's own page are that company's marketing claim, not independently verified by Muse.

DIRECT INPUT

Stripe

<https://stripe.com/payments>

Captured 2026-08-05

Pattern Four equal benefit lanes translate conversion, global reach, fraud control and delivery speed into outcome-led proof, followed by a recognizable customer-logo band.

Informs Proof Wall: structure + proof hierarchy

DIRECT INPUT

Notion

<https://www.notion.com>

Captured 2026-08-05

Pattern Whole-card navigation across shipped-work lanes, each card leading with a one-word or short title and a two-to-five word one-liner, no eyebrow, no separate button.

Informs Proof Wall / Doors card behavior: interaction + structure

39 Reference evidence (2 of 3)

DIRECT INPUT

Salla

<https://salla.com>

Captured 2026-08-05

Pattern A quantified proof statement shown after the site's opening thesis: a settled metric stands in for a client-logo wall.

Informs Proof / metrics band: structure + bilingual

DIRECT INPUT

Framer

<https://www.framer.com>

Captured 2026-08-05

Pattern Live, shipped product previews presented as the content surface itself, not decoration wrapped around a marketing claim.

Informs Proof Wall visual proof: interaction

DIRECT INPUT

Mercury

<https://mercury.com>

Captured 2026-08-05

Pattern A proof grid of four metric cells tied explicitly to a stated standard, covering adoption, scale, durability and product experience as one designed system.

Informs Proof metrics band: structure

DIRECT INPUT

Al Rajhi Bank

<https://www.alrajhibank.com.sa/ar>

Captured 2026-08-05

Pattern A native RTL proof chapter: heading, one line of context, then a full five-cell metrics row captured after its reveal animation settles.

Informs Arabic proof hierarchy: structure + bilingual
